

AGN WINDS IN CHARLESTON

A conference dedicated to the physical characteristics of AGN accretion disk winds and their interaction with their environments

Charleston, SC, USA, 14-18 October 2011

Topics

Spectroscopic and imaging observations of AGN outflows

Simulations and energetics of AGN winds

Feedback from AGN winds

Scientific Organizing Committee

George Chartas (Chair)

Karen Leighly

Fred Hamann

Mike Eracleous

Agata Rozanska

James Reeves

Francesco Tombesi

Mike Crenshaw

Tahir Yaqoob

Local Organizing Committee

George Chartas (Chair)

Chris Fragile

Laura Penny

Kat Low

Alfair Meredith
